Summary

Aspiring frontend developer with hands-on experience in building responsive and accessible web applications using HTML, CSS, JavaScript, and React.js. Skilled in Git/GitHub for version control, API integration, and UI/UX optimization. Familiar with Python for problem-solving and scripting. Completed a part-time internship in admissions, developing strong teamwork, mentoring, and collaboration skills. Known for delivering clean, efficient code, ensuring cross-browser compatibility, and applying modern web development best practices.

Experience

NavGurukul   May 2025 - Present
Admission Intern

- Conducted one-on-one mentoring and assessment sessions (Learning Rounds) with prospective students to evaluate communication, problem-solving, and learning ability.
- Facilitated the admission process for 100+ applicants, ensuring fair and supportive evaluation.
- Provided structured feedback and guidance, helping candidates showcase their strengths.
- Strengthened interviewing, communication, and mentoring skills through regular interaction with diverse learners.

Projects

Weather App | HTML, CSS, JavaScript
🔗 Link

- Built a responsive weather app using JavaScript and OpenWeather API with real-time data and geolocation.
- Improved reliability by implementing error handling and local storage (client-side).
- Designed an accessible UI using glassmorphism and Flexbox, enhancing user experience.

Portfolio Website | HTML, CSS, JavaScript
🔗 Link

- Developed a personal portfolio website to showcase skills and projects.
- Implemented smooth navigation and clean UX, boosting engagement.
- Applied SEO best practices for improved search visibility.

To-Do List App | HTML, CSS, JavaScript
🔗 Link

- Built a responsive task management app with features like filtering, dark mode, and task prioritization.
- Enhanced user experience by adding keyboard shortcuts, accessibility improvements, and custom theme support.
- Implemented local storage for persistent data saving on the client side.

Education
